JCREST Central University Management System (CUMIS)

JCREST Central University Management Information System (CUMIS) is an innovative and integrated web based enterprise management system designed to automate the entire operations of a higher educational institution. It helps your university to provide valuable information to management, staff, alumni and students. CUMIS allows a multi-divisional, multi-departmental system handling activities such as admissions management, course registration and academics management, examinations, results, award of degree management, transcripts, alumni management, salaries, employee management, finance management etc. It comes with a powerful collaboration tool for communication amongst staff, students and alumni.

JCREST STUDENT INFORMATION MANAGEMENT SYSTEM

- Manages all student-related administrative processes at the University, including those involved with admission, academics and student finance.
- Electronic central data repository for all student records from post UTME registration, admission process, enrollment, through to exams, assessment records, attendance, transcripts and graduation etc.
- Generate assessment records such as exam results, attendance, transcript and reports at a click of a button.
- Provides vital academic information such as university calendar, lecture schedules etc.
- Provides portal for student Online course registration
- Inbuilt E-payment module

JCREST STUDENT ACCOUNTS

- Manage all the collection schemes that exist within the institution and consolidate everything to a single screen
- Creates a ledger for every student and generates the payment history of every student.
- Generate clearance slips and list of all debtors
- Integrates seamlessly with 3rd party Student Fees payment portals
- Consolidated View of all the Transactions within the Institution
- Auto Reconciliation of fees Collected and Banks Position
- Robust reporting module

JCREST FINANCIALS

- Web-based enterprise accounting software that meets and surpasses the needs of higher institutions at any levels.
- Facilitates payment of internal and external transactions promptly.
- Superior cash management capability for the transaction processing and reconciliation needs.
- Setup budgets easily and utilizes previous year information to quickly create current budget information
- Implements a workflow process that will ensure that approvals of both internal and external expenditure were budgeted for.
- Robust financial reporting

JCREST PAYROLL MANAGEMENT

- Handles all cadre of staff remuneration from employment to retirement within the university. It also generates a number of extracts and performs computations on salaries, arrears, pension, and gratuity.
- Define multiple pay elements, groups, structure and pay events and generate monthly Pay Slips for regular payroll, reimbursements, off-cycle payroll, overtime, bonus etc.

JCREST HUMAN RESOURCE MANAGEMENT

- Automates all aspects of human resource management from employment to retirement
- Benefits administration, Manpower development, Leave and attendance management
